

Math Refresher for Wastewater Operations

Instructor: Diane Johnson, P.E.

ALL wastewater professionals-operators, maintenance and management personnel- will benefit from taking this training.

This class covers basic math skills and methods for solving math-related problems that are associated with the daily operation of wastewater systems. **This 3 hour review will also prepare those who are planning to take the exam with typical test problems and test taking tips.**

By the end of this class the participant will be proficient with the Formula Sheet, the Calculator, the Davidson Pie, the Arithmetic and Geometric Means, and recognize what 7.48, 1440, .433 and 8.34 are-among other facts!

The last hour will cover a brief overview in Sustainable Management with a participation in a Self Assessment of the facility in which you work.

May 16, 2017 8:00 - 12:00 PM

Lunch will be provided after the workshop
